MATHS TEST (Mather 1) 25 to 6 to 18 13 5 to 6	S
10 10 10 to	
Alice has a mathematics test for which she is underprepared. She has to do at least one question correctly to pass the test. He decides to do a question which needs her to find the smallest prime number which is larger than a given integer N. Your task is	6
to find and return an integer value representing the smallest prime number larger than N. Input Format:	5
input1: An integer value N	
input1: An integer value N Output Format: Return an integer value representing the smallest prime number larger than N.	32
Return an integer value representing the smallest prime number larger than N.
